

# FOSS4G 2010

Free and Open Source Software  
for Geospatial Conference

Barcelona

6-9 September, 2010

**FOSS4G** is the annual conference for Open Source Geospatial Software organized by OSGeo. It is heralded as the international “gathering of tribes” of open source geospatial communities, where developers and users show off their latest software and projects, **and in 2010 will meet in Barcelona, Spain.**
