

14/05/12

Dear OSGeo Conference Committee Members,

On behalf of Forth Valley GIS, I am pleased to support the UK Organising Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

As one of the UK's leading independent providers of innovative Open Source-based GIS solutions, Forth Valley GIS is proud to serve customers from both the private and public sectors – demonstrating, in a very real way, the benefits of working with Open Source technologies. The UK, with its rich history of being at the forefront of mapping, is the perfect location for next year's OSGeo Conference.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

Alan Moore  
Chief Executive
